

CENTRAL TIED UP  
BY THE BOYCOTT.STRIKE FELT SEVERELY IN  
CHICAGO TODAY

American Railway Union Enforcing the Boycott on Pullman Cars—Several Trains Stopped—All Traffic Likely to Be Delayed—Great Western the Next to Suffer.

CHICAGO, June 27.—The Illinois Central is badly crippled by the strike today. It is said that the strikers' next work will be on the Great Western. The police have been sent to the yards. On the Illinois Central last night the boycott against Pullman cars turned into a strike against the railroad company, the switchmen going out at 8 o'clock. They were followed by the switch-tenders and at midnight were joined by the switch tower operators.

This was a surprise to the officials of the road, but it was a well-planned move on the part of Debs, Howard, and the other leaders of the anti-Pullman war. They secretly organized these men and resolved to make a test of their strength against the road on which they are strongest and best organized.

When the switchmen and tenders went out a mob which soon grew from 500 to 2,000 switchmen, Pullman strikers and sympathizers gathered at Grand Crossing and stopped all Illinois Central trains but one that attempted to pass. They also stopped the Pennsylvania trains. At 10 o'clock there were nine trains of the former road and six of the latter blockading the tracks centering at Grand Crossing. The switchmen say they have struck in sympathy with the Pullman strikers and in accordance with the plans of the American Railway Union.

The mob began to gather at Grand Crossing at 7 o'clock and by 8 o'clock became strong enough to interrupt traffic. No discrimination was shown in the operations of the strikers. Suburban trains, passenger trains, freight trains, everything, whether it carried a Pullman or not, was halted by the mob. One Illinois suburban train managed to pull through early in the evening, but after that traffic was completely stopped. Another attempt was made to get an Illinois Central suburban train through, but a man in the crowd threw himself down on the rails in front of the engine and the engineer refused to move the train.

Police are stationed in the yards and no danger of lawlessness is feared. An officer of the Pennsylvania system said: "If the responsibility for this trouble can be located the government is likely to take a hand in the fight. The stopping of the mail train is a serious offense and an investigation will be demanded. I am confident, however, that the Pennsylvania system will suffer very little by the boycott. We have many Pullman cars and are determined to operate them, American Railway Union or no American Railway Union. I have been all over my division and know how the men feel. They are not in sympathy with the movement. We are so confident of the outcome that the Pennsylvania road has not considered special defensive measures. We believe the regularly delegated authorities are equal to the emergency. There may be hitches for a few days, but that will be all. We have not had a particle of trouble in our yards and have every assurance that our switchmen will be loyal."

## PULLMAN TAKEN FROM A TRAIN.

Debs' Men Obey Orders at Eaton, N. M., in a Determined Way.

RATON, N. M., June 27.—As a result of instructions issued by the American Railway Union a committee stationed itself at the Santa Fe depot here and upon the arrival of the east bound limited express cut out the Pullman car Ghent from the train. The officers of the division have ordered the train held here until further orders, notwithstanding that it is a mail train.

MINNEAPOLIS, Minn., June 27.—It is generally believed here both by railroad men and members of the American Railway Union that no radical move will be made in the Twin Cities for several days. Members of the union are inclined to the belief that the matter will be settled in Chicago. Everything is quiet.

GALESBURG, Ill., June 27.—President Debs of the American Railway Union appealed yesterday to the great railroad brotherhoods for help to sustain the boycott against the Pullman cars. Debs telegraphed to the Brotherhood of Railway Trainmen, with headquarters here, asking for their co-operation and the presence of Grand Master Wilkinson at a conference to be held in Chicago. Mr. Wilkinson is not here, but W. A. Sheahan, the grand secretary and treasurer, declined. The brotherhood people say the time for a conference was before the boycott was ordered. Mr. Sheahan says the brotherhood officials have no authority to order the men out without first obtaining from them through their grievance committees and lodges their consent.

ST. LOUIS, Mo., June 27.—St. Louis switchmen in the brotherhood will handle Pullman cars until Grand Master Wilkinson tells them not to do so. As nine-tenths of the switchmen here belong to the brotherhood any action by the American Railway Union switchmen would cut little figure.

MINNEAPOLIS, Minn., June 27.—Dispatches from Chippewa Falls, Wis.

La Crosse, Wis., and Mandan, N. D., state that all trains pulled out carrying Pullman cars without any interference. No strike orders have been received.

WEST SUPERIOR, Wis., June 27.—An order was received at Superior yesterday afternoon from Debs ordering the American Railway Union men to refuse to handle Pullman cars. A train on the Omaha road at 11 o'clock left with a Pullman, the engine being coupled to the train by the superintendent and yardmaster. Trouble is feared, as there are several union men on the train.

DENVER, Colo., June 27.—Supt. Smith of the Pullman company thinks the boycott instituted by the American Railway Union will have little effect in this territory. So far no formal move has been made in the matter.

CINCINNATI, Ohio, June 27.—The manager of the Pullman shops in Ludlow, Ky., posted a notice that all striking employees who do not promptly return to work will be discharged. Twenty-eight of the strikers returned under that notice and resumed work.

## BOYCOTT TO BE IN FORCE TO-DAY.

Leaders of the Union Perfecting Their Plan of Campaign.

CHICAGO, June 27.—The executive committee of the American Railway Union was in session nearly all day yesterday. President Debs said the boycott so far as Chicago was concerned would not be in operation until to-day. "We do not wish," he said, "to interfere with trains that are already made up. To stop their making up is our object, and that we will do to-morrow." Reports given out later by the spokesmen of the board of directors were to the effect that the switchmen on all city lines were in full accord with the boycott and would act to-day in accordance with any orders the heads of the union might see fit to issue. Word was sent to the switchmen at all the yards that a meeting of the executive committee would be held at 9 o'clock this morning, and that from that meeting orders would issue which should decide their course during the day.

Not a train on the Illinois Central road, either through or suburban, will leave Chicago this morning. Such was the expectation expressed by officials of the road at midnight last night.

Chief Arthur of the Brotherhood of Locomotive Engineers telegraphed: "The rules of our order will not allow us to co-operate with you. We blame Pullman for refusal to arbitrate differences."

John McBride, president of the United Mine Workers, telegraphed that his union would assist the boycott by every legitimate means in its power.

Chief Sargent was wired for an expression of his position and that of the Firemen's Brotherhood, but he was not at home. An answer is expected to-day.

The general managers of the railroads that may be affected by the boycott met yesterday afternoon and agreed to stand by one another.

## Eastern Roads Fear No Trouble.

NEW YORK, June 27.—No particular trouble is expected on the eastern roads on account of the boycott of the Pullman cars. Most of the railroad's employees in the east are affiliated with the various brotherhoods and, while they are generally in sympathy with the members of the western organization, are not directly concerned in the strike or boycott. It is quite likely, however, that when the 100 cars leaving Jersey City daily reach Chicago or points west they will get sidetracked.

## MOBS STILL AFTER ITALIANS.

During the Pillaging at Lyons Three Rioters Are Killed by an Explosion.

LYONS, June 27.—A riotous mob gathered at 7 o'clock last evening and marched upon the Italian quarter in the northern district of the city. There the rioters attacked and looted a number of stores. During the pillaging a barrel of petroleum exploded and burned three of the rioters to death. Troops have been dispatched to the northern district. In addition all the dangerous points about Lyons have been occupied by the military. More serious trouble is apprehended. Two thousand arrests were made yesterday in connection with the anti-Italian manifestations. Crowds of rioters thronged the streets, and in spite of the efforts of the police and military sacked Italian stores and taverns, and after throwing their contents into the streets made bonfires of everything combustible.

GRENOBLE, June 27.—There has been serious rioting here. The disturbance commenced Sunday night and was continued until only this morning. The mob yesterday proceeded to the Italian consulate and wrecked the building. A detachment of military engineers was summoned and the soldiers charged upon the mob. After the rioters were driven out of consulate, which was then occupied by the troops, the prefect made an apology to the Italian consul. At 11 o'clock the military authorities occupied all the public squares and boulevards with infantry, cavalry and artillery, and Grenoble was, to all intents and purposes, in a state of siege. The show of military quieted the mobs.

## Lord Churchill to Visit Chicago.

LONDON, June 27.—Lord Randolph Churchill has engaged passage for New York on board the White Star Line steamship Teutonic on her next trip from Liverpool for New York. He will visit Chicago and will sail from Vancouver for Japan.

HILL AGAIN KICKS  
AGAINST THE TAX.NEW YORKER AFTER THE IN-  
COME CLAUSE.

More Amendments Killed—He Offers Suggestion After Suggestion Which Are Voted Down in the Senate—Appropriation May Be Extended—Senator Peffer's Idea.

WASHINGTON, June 27.—In the senate to-day Hill made another protest against the discrimination of the income tax. When the income tax was taken up in the Senate yesterday Mr. Hill withdrew the amendment offered Saturday to strike out the provision exempting the interest on United States bonds from the operation of the tax. His object in offering the amendment, he said, was to call the attention of the country to the fact that \$655,000,000 of property in government bonds were necessarily exempt from the operation of the income tax under the law, although the ostensible purpose of the income tax was to reach wealth and equalize taxation.

Senator Hill then moved to exempt state, county and municipal bonds. He argued that the taxation of state bonds by the federal government would be a direct attack upon the administration of the states.

Discussion on the constitutionality of a national tax on state or municipal bonds continued for some time, and then a vote was taken on Mr. Hill's amendment. It was lost, 25 to 30. Messrs. Gray, Hill and Pugh (democrats) voted with the republicans for the amendment and Mr. Pettigrew (republican) and the populists against it.

Mr. Hill then modified his amendment so as to confine the exemption to state bonds. Lost—27 to 30.

Mr. Hill then moved to strike out the provision for a tax on personal property acquired by gift or inheritance. Lost—26 to 34.

Vest's amendment excluding in the calculation of the incomes of banks, banking institutions, trust companies, life, fire and other insurance companies, railroad, canal, telephone, telephone, telegraph and other companies, actual operating and business expenses, losses, and interest on bonded and other indebtedness was agreed to.

A committee amendment was adopted providing:

The tax shall not apply to states, counties, or municipalities; nor to corporations, companies, or associations organized and conducted solely for charitable, religious, or educational purposes, including fraternal beneficiary societies, orders or associations operating upon the lodge system and providing for the payment, of life, sick, accident, and other benefits to the members of such societies, orders and associations and dependents of such members; nor to the stocks, shares, funds or securities held by any fiduciary or trustee for charitable, religious or educational purposes; nor to the loans made by building and loan associations to their shareholders for the purpose of enabling them to provide for themselves homes; nor to such savings banks, savings institutions or societies as shall (1) have no stockholders or members except depositors and no capital except deposits; (2) shall not receive deposits to an aggregate amount in any one year of more than \$1,000 from the same depositor; (3) shall not allow an accumulation or total of deposits by any one depositor exceeding \$10,000; (4) shall actually divide and distribute to its depositors ratably to deposits, all the earnings over the necessary and proper expenses of such bank, institution or society, except such as shall be applied to surplus; and (5) shall not possess in any form a surplus fund exceeding 10 per cent of its aggregate deposits.

Mr. Allison moved to add to section 59 the words: "And nothing herein shall apply to any corporation, company or association having a paid up capital of less than \$10,000."

Without acting upon the amendment the senate adjourned.

## To Extend the Appropriations.

WASHINGTON, June 27.—It is expected a resolution will soon be presented extending the present appropriations thirty days. This resolution will have to pass this week, as it is impossible to get any of the regular appropriation bills passed before the 1st of July.

## BASEBALL.

Games Played Yesterday in the National League.

No change in the relative rank of the National league clubs occurred yesterday. Three games were played, as follows:

## Edison Will Soon Be Well.

ORANGE, N. J., June 27.—Mr. Edison's condition last night was favorable. He rested easy throughout the day and every precaution is being taken to secure for him perfect quiet. He is expected by his physicians to be around again within a few days.

CASMER-PERIR PUT  
IN CARNOT'S SEATNEW PRESIDENT OF FRANCE  
ELECTED TODAY.

Trial of the Anarchist, Santo, Begins in Lyons—Remains of Murdered President Lie in State in Capital—Riotous Scenes in Other Cities—Anarchists Arrested.

PARIS, June 27.—M. Casmer Perir was elected president of France this morning by seventeen majority on the first ballot. His election will have a very quieting effect on the nation. The trial of Santo, the assassin of President Carnot, began in Lyons today. Carnot's body lies here in state today. The train bearing the remains of the murdered president of the republic arrived here at 3:10 a. m. yesterday. The prefect of the Seine, M. Poubelle, and his staff, the prefect of police, M. Loze, and his staff, the railroad officials and Gen. Saussier, the military governor of Paris, with his staff, met the body at the station, which was heavily draped. The ceremonies at the railroad terminus were private and consisted only in the formal transfer of the remains to the prefect of the Seine. The casket was placed in a hearse in the presence of the officials mentioned and the officers of the late president's military household, headed by Gen. Boriuss, chief of the military household, Capt. Jaureguiberry and Col. Chamoin, and escorted to the Elysee palace, followed by five carriages, including a landau which was occupied by Mme. Carnot and her three sons.

In spite of the early hour and the fact that the time the remains of the late president were to arrive here was not generally known, several thousand people had gathered about the railroad station. Every person present stood with uncovered head until the funeral cortege passed on its way to the palace. The cortege having entered the Elysee grounds, the gates were closed.

At the palace the body was received by the officers of the late president's civil household and conveyed to one of the reception rooms which had been converted into a mortuary chapel, hung with black cloth and having a catafalque in its center upon which in silver letters was the initial "C" over the letters "R E" (Republique Francaise). The widow was so overcome with emotion when the casket was placed in the mortuary chapel that she was compelled to retire to a private room, where her sons did their utmost to console her. The members of the cabinet were absent from the reception of the remains at the railroad station nor were they present when the body arrived at the Elysee. It was also noticed that the military guard at the palace did not present arms when it turned out upon the arrival of the hearse at the palace. But it is believed that this was due to the fact that the early morning transfer of the remains from the depot to the Elysee was an entirely informal ceremony. It is now said to be established that Santo lived for some time in the Rue Traversiere, this city, occupying a room in the house of an Italian wine dealer. The assassin's name was registered at the labor exchange. The feeling against Italians in particular and foreigners in general, aroused by the assassination of the president has caused several factories in the suburbs of this city to discharge all the foreigners in their employ and it is expected that the same course will be adopted by other factories. It is hoped, however, that when the sympathetic action of the king of Italy, the Italian chamber of deputies and Premier Crispi are more generally known throughout France a great deal of this feeling against Italy will be softened.

The excitement here over the groundless rumor of the French ambassador's assassination at Rome shows how thin is the crust of the volcano on which this whole people is standing. The authorities of both nations have been more strenuously than before attempting to keep the peace. And the newspapers for the first time in the recent history of France are seconding them by non-alarmist comments. But the city is seething with half-suppressed fear and open rage. The boulevards are black with people and there are frequent encounters between the populace and the police, who have orders to keep the crowd in motion.

Gloried in Carnot's Death.

LISBON, June 27.—Six Spaniards have been arrested in this city charged with posting red placards yesterday evening in the leading thoroughfares. The placards were inscribed: "Ravachol, Vaillant and Henri are avenged, Santo's arm has rendered them justice."

## Rebels Demand \$50,000 Ransom.

LIMA, Peru, June 27.—After a skirmish with the rebels who had seized the custom house at Payta, the transport Santa Rosa to-day landed the federal troops she carried from here and the rebel leader, Monotonero, retired. Peter Dancuart, administrator of the Callao custom house, is held prisoner by Monotonero, who demands a ransom of \$50,000 for him.

STRAITON's store will close with the week; "we more days."

## GET DOWN TO WORK.

Republican League Club Session Begins in Denver.

DENVER, Colo., June 27.—The opening session of the convention of the League of Republican Clubs yesterday was the first round-up of the delegates, and it developed the fact that there were more states and territories represented than at any of the previous conventions. There were forty states and territories represented. Illinois showed up with seventy-six delegates, Wisconsin fifty, Minnesota forty-four, Iowa fifty-six and Indiana twenty.

The committee on the location of the next league convention, consisting of one member from each state and territory represented, met in the rooms of the New York delegation at 6 o'clock in the evening and after a protracted contest gave the next convention to Des Moines by a vote of 15 to 12. The action of the committee will undoubtedly be ratified by the convention.

The silver people claim that the subcommittee of the committee on resolutions is fixed to report a free silver resolution to the main committee. The complexion of the subcommittee does not warrant this statement, but the information seems reliable. This would seem to indicate there are some men on the committee who are posing as against free silver, but who are at heart for it. There seems to be no probability the full committee will adopt any such report.

The proceedings of the convention yesterday were purely formal, including an address by President Tracy and the appointment of committees. Real work begins to-day.

## MAKES A MILE IN 1:56.

John S. Johnson Breaks The World's Bicycle Record.

WALTHAM, Mass., June 27.—John S. Johnson of Syracuse, N. Y., yesterday afternoon rode the fastest mile on the Waltham track ever ridden on a bicycle. Johnson was paced on two tandem to try to beat the world's record of 2:03 3-5 for the fastest mile ever made in public. He not only broke that record, but he lowered Windle's world's record of 1:56 4-5, made in private last fall on the Springfield track. Johnson made the mile in public yesterday in 1:56, with flying start, thus breaking his own world's public record by 7 3-5 seconds and Windle's private record by 4-5 of a second. Not only that but it was evident that he could have gone even faster under more favorable conditions.

## Ferreting Out the Conspiracy.

LYONS, June 27.—Santo, the anarchist assassin of President Carnot, was again brought up for examination before Examining Magistrate Benoit yesterday. The prisoner declared himself to be an anarchist and to be devoted to a policy of violence. In this affair he said he acted upon his own initiative. He had not been engaged in any conspiracy to murder the president.

The magistrate, however, is not convinced that the prisoner had no accomplices, as it has been ascertained that when Santo stopped at Vienna and Montpelier he had several suspicious conferences with persons suspected of being in league with the anarchists. In addition, when Santo stopped at Vienna, en route to Lyons, he slept at the house of an anarchist. The police investigation into the crime has already led to the arrest of three persons at Vienna who are believed to have been engaged in the conspiracy.

## The Illinois Convention.

SPRINGFIELD, Ill., June 27.—A caucus of about fifty of Gen. Black's friends was held last night, and it was agreed to support a resolution, to be introduced to-day in the democratic state convention, committing the convention to the nomination of a United States senator. The resolution will be offered by Judge Vincent of Chicago. Late last night it looked more like Black or Andrew Hunter than MacVeagh. The action on silver is still uncertain, but it is thought the convention will favor the use of both gold and silver.

## Ex-Gov. Chase on the Stand.

FRANKFORT, Ind., June 27.—The Paris embezzlement case reconvened yesterday morning, when the cross-examination of ex-Gov. Chase was resumed by Mr. Shirley. He said the mine was an abandoned one which had been operated a century ago, and that it had never paid anything to the stockholders. It was with stock in this mine that Paris had offered to settle with the depositors of the Greentown and Russiaville banks. The defendant was next to take the stand. He told of his banking experience. To-day Paris will be cross-examined and the arguments will commence.

## Johnson for Governor of Maine.

LEWISTON, Me., June 27.—At the democratic state convention yesterday Charles F. Johnson of Waterville was nominated for governor. Resolutions were adopted expressing sympathy for France, favoring the election of United States senator by popular vote, disapproving the importation of foreign laborers by corporations, for the limitation of the hours of labor for women, and indorsing the Chicago platform.

## Four of Forty-four Bodies Recovered.

NEW YORK, June 27.—It seems probable that the list of those lost on the ill-fated tug J. D. Nicol is greater than was at first supposed. Only four bodies have been recovered. More than forty are believed to be still in the water, and whether they will ever be found or not is doubtful.

After He Has Preached to Them for Nine Years They Want to Know Why White Men Do Not Act According to the White Man's Religion.

BLACK RIVER FALLS, Wis., June 27.—The Rev. J. Stucki, the missionary who has been laboring among the Winnebago Indians on their reservation nine miles from this city for the past nine years, is not very enthusiastic over the result of his labors. He says that aside from what book knowledge they are getting very little good is being accomplished among them. They are observant and reasoning beings and have told him repeatedly that they thought he had better try and convert the whites before he labored with them.

## GIVES RISE TO FEAR.

President's Treasury Statement Causes Apprehension.

WASHINGTON, June 27.—The statement issued by President Cleveland for the purpose of relieving apprehension regarding the condition of the treasury has excited considerable comment. It is regarded as somewhat extraordinary that he should have found an occasion for the statement and some fear is expressed that the fact of his regarding the situation as demanding a life-preserver statement will cause rather than allay apprehension. The monetary situation, both by the treasury and of the country, is very generally understood, but so far as is known there is no sudden alarm or panicky feeling on account of it. The fact of the President's seeking to give assurances of safety is construed to give assurances of a greater uneasiness on the part of the administration than was believed to exist.

## GEORGIA TRAIN HELD UP.

Robbers Blow Open the Express Safe with Dynamite and Escape.

SAVANNAH, Ga., June 27.—Train No. 6 on the Savannah, Florida & Western railroad was held up near Hornerville, 126 miles from Savannah and near the Florida line at 2 o'clock this morning. The train was brought to a standstill by the danger signal and was then boarded by a half dozen men armed with rifles. The Southern Express company's safe was blown open with dynamite and all its contents taken. Their value is not known. Engineer Jenkins was then forced to cut the engine from the train and carry the robbers about eleven miles. It is supposed they have gone into the Okefenokee swamp to hide. A posse with bloodhounds is on the track of the robbers.

## OTHERS WILL BE TARRED.

Serious Threats Prevail in Colorado Springs and Cripple Creek.

COLORADO SPRINGS, Colo., June 27.—Rumors of all sorts of contemplated outrages are in the air here and the mails are burdened with threatening letters.

Last night W. H. Brooks, who has mines at Cripple Creek and was the first mine owner to require nine hours for a day's work, received warning that a band of miners intended to take him out and serve him as Gen. Tarsney had been served.

Sheriff Bowers received the following letter: "Unless the cowardly rascals who attacked Gen. Tarsney are arrested by to-day your city will be burned."

## Labor Day a Legal Holiday.

WASHINGTON, June 27.—Congressman McGann has succeeded in getting his joint resolution making Sept. 1 (Labor day) a legal holiday adopted by the house. He secured unanimous consent for its consideration, and after listening to his explanation of its character the house adopted the resolution unanimously. The senate adopted the resolution some time ago, and the President's signature is all that is needed to make it law.

## Anti-Option Bill May Sleep.

WASHINGTON, June 27.—When the anti-option bill reaches the senate there will be a sharp struggle for reference. Its friends will try to send it to the agricultural committee and its opponents to the judiciary committee. If the latter succeed the bill will slumber through the life of the fifty-third congress.

## Mrs. Lease Will Visit England.

TOPEKA, Kan., June 27.—Mrs. Mary E. Lease announces that she will visit England this fall for the purpose of settling up an estate there in which she is interested. She also stated that she had an offer to make a lecture tour in Australia, which she was seriously considering.

## Goes Down in English Channel.

LONDON, June 27.—The steamers Crosshill and Norah collided to-day in the British channel. The Norah sunk and several members of her crew are missing. The Crosshill has been beached.

## Big Scotch Strike Begins.

EDINBURGH, June 27.—The strike of the Scotch coal miners began yesterday, 60,000 men ceasing work.

Could anything be fairer? The Gazette wants subscribers. The Shaw piano is seeking friends. Let us rally our energies and make the closing days ring with hurrahs for the favorites.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

Worn Out in Harness.

In the harness of every day business work men and women wear out prematurely. For some of us it is not easy, for others, again, it is impossible to get out of harness. It is the inflexible yoke, the strongy forged unbreakable shackle of inveterate servitude needful to ourselves and those most dear to us. The weight of it often bows many of us into the grave before our time, but it is undoubtedly true that there is a means of rendering the burden less onerous, and of mitigating the ailments that unrelenting toil—especially of a sedentary kind—has a tendency to produce. Overworked clerks in counting houses, mill operatives, bookkeepers, type writers and others testify to the reviving, restorative effects of Hostetter's Stomach Bitter, and its power to renewing physical and mental energy when overtaken and on the wane. Dyspepsia, failing vigor, rheumatic, bowel and kidney complaints yield to this beneficent medicine, which is a preventative of malaria and counteracts the effects of exposure in inclement weather.

PIANO PRACTICE.

Utterly Useless In Some Cases, but Vocal Exercise, Never.

The newspapers are continually publishing jokes at the expense of the unmusical young woman or girl who persists in practicing upon the piano and going through singing exercises. There is no more reason to find fault with the latter custom than with any other sort of gymnastics, for even if a girl can never learn to sing proper vocal exercises properly practiced strengthen the throat and lungs and thereby improve the general health. But piano practice to one who has no taste for it is utterly useless. The confinement and cramped position are irksome in the extreme when there is no compensating intellectual pleasure, and the feeling that too often accompanies faithful practice, the feeling that the pupil is constitutionally unable to achieve a musical result, no matter how laboriously she perseveres, has a depressing and unwholesome effect.

Yet thousands of parents persist in setting their daughters to learn to play the piano in spite of natural aversion and incapacity, and thousands of girls throw away years of their youth in attempting to accomplish what is to them impossible. How much better it would be if fathers and mothers would have their children taught those things which they are capable of learning and which will be useful to them! If a girl has musical talent, by all means cultivate it, but if she has not let her learn millinery, dressmaking, hairdressing, something that is available for everyday use. She is not obliged to make it her profession if she does learn it, and she will be amply repaid for the small outlay of time and money by the ability to assist herself and her particular friends. Nobody, man or woman, no matter how intellectual, should be entirely helpless and ignorant as to handicrafts. There is nothing degrading in a practical knowledge of any trade, and in these days of fluctuating fortune such knowledge may on occasion stand between a girl and destitution. So, if you care for your daughter's welfare, teach her a trade as well as accomplishments.

GIRL'S CREPON GOWN.

A sketch is given of a young girl's gown of rose colored crepon trimmed with bands of white lace insertion. The skirt is plain, but the corsage is crossed in front over a full plastron. The tight sleeves have a puff to the elbow, and the collar and belt are covered with insertion. The light brown straw hat is trimmed with rose colored ostrich tips and ribbon.

NEW ETON JACKETS.

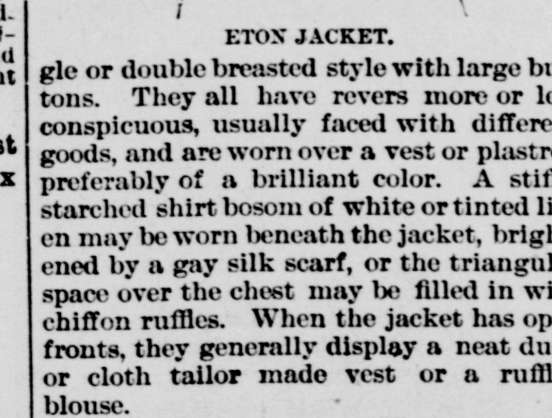

Styles to Suit All Tastes and For All Occasions.

Bodices differing from the skirt are more worn than ever. Silk lawn and muslin are all employed for these garments, and every degree of elaboration is seen, from the plain shirt waist to the complicated affair made of lace, moire and spangles. There are styles to suit every occasion, but the prettiest bodices are not necessarily the most expensive. Blouses of ruffled lawn are often more becoming than those of richer materials. Some pleasing ones are shown made of soft silk or crepe with a wide collar, Garibaldi front and folded belt, but the yoke effect is usually employed and is accentuated by a trimming of double or even triple ruffles around the shoulders. Sometimes bretelles extend from shoulder to waist back and front, the bodice being full between them.

The new Eton jackets are tighter and longer than those of last season and show a tendency to close in front in either single or double breasted style with large buttons. They all have revers more or less conspicuous, usually faced with different goods, and are worn over a vest or plastron preferably of a brilliant color. A stiffly starched shirt bosom of white or tinted linen may be worn beneath the jacket, brightened by a gay silk scarf, or the triangular space over the chest may be filled in with chiffon ruffles. When the jacket has open fronts, they generally display a neat duck or cloth tailor made vest or a ruffled blouse.

The standing collar still prevails in spite of the weather and is often supplemented on the outside by another flaring one still higher. It is as uncomfortable and therefore silly a fashion as was ever invented for this season of the year.

An illustration is given of a sort of Eton jacket, double breasted and having double revers of contrasting colors. The flaring cuffs of the gigot sleeves are also double. The jacket closes with two rows of three large buttons each, and the V at the throat shows a plain linen band collar and a silk scarf holding a scarfpin.

JUDIC CHOLLET.

SAVED HIS BEAR.

Although He Had to Take a Plunge in the River.

S. S. Badger, a hunter of renown, arrived lately in San Francisco from Siskiyou county, after an exciting experience with four large bears, in which he narrowly escaped with his life. He told the story as follows:

"I was hunting," he said, "on White Rock creek, in Trinity county, and had an Indian with me named Gordon. We saw four bears standing close together, about half a mile away, and immediately began to steal up toward them. I picked out a huge black bear, the only one in the group of that color, and told the Indian to select one of the other three. He singled one out and we kept crawling up. When we got close enough we both blazed away. I caught my bear a little back of the heart, but he keeled over, and in place of lodging in the bank rolled into White Rock creek. It is a good deal of a river, and as I did not want to lose the bear I rushed up and plunged in.

"There was an awfully swift current, and the water, which was icy cold, came pretty near to my neck. As the dead bear came floating by I made a grab for him. He was very heavy, and nearly swamped me. Down we went, swirling in the depths. It was all I could do to get out, but I finally did, and saved the bear. The Indian got his bear all right. I have never seen so many bears anywhere as there are in that part of the country. You can see them everywhere. I didn't bother much with other game, except to kill a couple of deer that came in the way. The bears were the attractive game and we found them on all sides of us."

Twins at Sixty-Three.

In June, 1892, Mrs. Harrison Breedlove, of Carson City, Nev., presented her husband with a bouncing pair of twins. This fact of itself is not "out of the ordinary," but when it is known that the lady was 63 years of age at that time, and the husband over 70, it becomes an item worthy of record in all annals devoted to oddities respecting human beings. The Breedloves are said to be the oldest couple in the world that were ever so favored.

Walking in Her Sleep.

An old colored "mammy" noted for her originality in methods of nursing, declares that she cured a whole family of sleepwalkers by placing a strip of oilcloth each side of the bed—the feet touching the cold floor awakened the sleeper. Wet carpet on the floor is a not unknown remedy, and a bathtub of water where the wandering sleeper would descend into it on leaving his bed is the rather heroic treatment sometimes resorted to.

Surgeons Press the Button.

Electricity is invading every avenue of domestic and public life. One of the most recent developments is its use as a likely anesthetic. Painless operations have been conducted under its influence, and it is said that remarkable cures have been obtained in lumbago and rheumatism by simply pressing a small specially-shaped incandescent lamp on the skin at the seat of the pain.

WORKING WOMEN.

THEIR HARD STRUGGLE

Made Easier by the Timely Intervention of One Woman.

(SPECIAL TO OUR LADY READERS.)

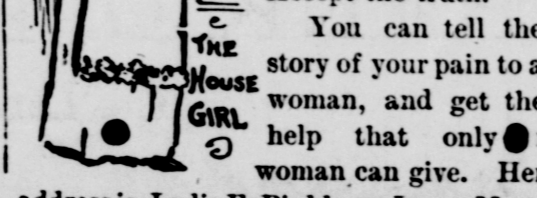

All women work. Some in their homes, some in church, and some in the whirl of society. Many in stores, mills, and shops, tens of thousands are on the never ceasing treadmill earning their daily food.

All are subject to the same physical laws; all suffer alike from the same physical disturbance; and the nature of their duties in many cases quickly drifts them into the horrors of all kinds of female complaints—ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhoea, or perhaps irregularity or suppression of "monthly periods"—causing severe backache, nervousness, irritability and lassitude.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles and displacement with all its horrors will no more crush you.

Backache, dizziness, fainting, bearing down, disordered stomach, moodiness, dislike of friends and society—all symptoms of the one cause—will be quickly dispelled, and you will again be free. Accept the truth.

You can tell the story of your pain to a woman, and get the help that only a woman can give. Her address is, Lydia E. Pinkham, Lynn, Mass.

**THE TRIUMPH OF CONSERVATIVE SURGERY** is well illustrated by the fact that RUPTURE or Breach, is now radically cured without the knife and without pain. Clumsy, chafing trusses can be thrown away. They never cure but often induce inflammation, strangulation and death. TUMORS Ovarian, Fibroid (Uterine) and many others, are now removed without the peril of cutting operations. PILE TUMORS, however large, Fistula of the lower bowel, are permanently cured without pain or resort to the knife. STONE in the Bladder, no matter how large, is crushed, pulverized, washed out and perfectly removed without cutting. STRICTURE removed without cutting in hundreds of cases.  1550—Charles IX of France born; died 1574.  
 1682—Charles XII of Sweden born; killed 1718.  
 1709—Battle of Poltava and complete rout of Charles XII by troops of Peter the Great.  
 1829—James Smithson died in Genoa; born 1767; natural son of the third Duke of Northumberland and Lady Somerset; left \$200,000 to found the Smithsonian Institution.  
 1830—Maharajah Runjeet Singh, chief of Lahore, owner of the celebrated diamond "Kohinoor," died at Lahore; born 1780.  
 1844—Joseph and Hiram Smith were killed by a mob at Carthage, Ill.  
 1840—Collision in the Atlantic between the steamer Europa and the emigrant ship Charles Bartlett; the Bartlett sank, carrying down nearly 150 people.  
 1873—Hiram Powers, American sculptor, whose "Greek Slave" gave him worldwide fame, died at Florence; born at Woodstock, Vt., 1805. (Six duplicates of "The Greek Slave" were made by Powers. His other famous statues are "The Fisher Boy," "Il Penseroso" and "The Last of the Tribe;" also statues of Washington, Webster, Calhoun, Franklin and Jefferson. He executed many ideal busts which added to his fame and also many heads of distinguished Americans.)  
 1876—Harriet Martineau, author and agnostic, died at Ambleside, England; born 1802.  
 1890—Intense heat throughout the west; hundreds were prostrated in Chicago.

## BIG PRICE FOR A CHANGE.

How much has it cost the voters of this country to have a "change?" The fiscal year is now drawing to a close and the shrinkage in revenues is estimated at \$75,000,000. This is the first time that the expenditures have exceeded the receipts since the war, and the amount of the deficit is so large as to be really startling. The treasury gold reserve, though replenished a few months ago by the sale of \$50,000,000 of bonds, is down to about \$62,000,000, or \$38,000,000 less than it should be, and the aggregate cash balance is far below the requirements of safety to the national credit and justice to the public creditors. This is the effect of democratic rule upon the affairs of the government—the result of the substitution of different policies and methods for those which prevailed when the republican party was in power. The contrast between existing and preceding conditions is a most impressive and instructive one. It shows at a glance what a monstrous mistake was made in 1892, and how shamefully the federal interests have been neglected and abused.

## NOT A LABOR BUREAU.

One of the most valuable facts added to the science of sociology for many a year is the decision of the voters of Switzerland, by about four to one, that it is not the duty of the government to provide work for unemployed citizens. For more than a generation the socialists of Europe have been contending that "the right to work" should be practically recognized in every nation, and that if this proposition could be submitted to the people it would be approved by an immense majority. The test has been fairly made in the oldest important republic in the world, and has been overwhelmingly defeated. Now let the socialists admit that they have made a mistake in their theories, so serious that the whole groundwork of their political schemes is affected.

## THE FARMER MADE MONEY.

Rock County tobacco growers should find a lesson in the case of the South Carolina farmer who raised nothing but cotton for thirty-two years and was constantly in debt. Then he decided to buy nothing that could be raised on his land. He has given this plan a trial for several years, and now, he says, he has canceled the mortgage on which he paid 10 per cent. interest so long, and is making more money on cotton at seven cents than when it was five times as much and occupied his whole farm. This simple method of getting ahead in the world has been brought to the attention of the farmers thousands of times, and some day it will become popular.

It is a humiliating fact that the populist senators have been obtaining more concessions from the democrats in the tariff business than have been granted to the representatives of any other organization except the sugar trust.

The only danger that exists for republicans this year is that of making bad nominations under the mistaken impression that anybody can be elected because of the general drift of sentiment against the democratic party.

The income tax is not wholly bad. Hill says that it will drive New York, New Jersey and Connecticut into the republican column, there to permanently remain.

No wonder other dealers' tempers are ruffled somewhat while we ride serenely on our successful tidal wave.

"Scrubbing-a-floor" and "moving-a-shelf" sales won't work here in Janesville. The people are onto such rackets, and are not to be caught by such palpably nonsensical and silly assertions. Values—genuine, honest, nineteenth century bargains—are what the people want. ## PAVING THE RULE ON MANY STREETS.

### NORTH RIVER TO BE IMPROVED NEXT.

Contract Signed by the Owners of Abutting Property—Many Other Petitions Being Circulated—No Increase in Salary in the Janesville Postoffice—Key Used as a Revolver.

STREET paving is the order of the day. The indications are that portions of a number of streets will be treated before the season's end. To-day a private contract was awarded P. W. Ryan for grading and paving with cedar blocks a portion of North River street, specifications being the same as South Main street. The contract is a private one, made between the contractor and the owners of abutting property, the First National bank and F. S. Eldred, which includes all the street between Milwaukee and the fire station, except one building lot. It is said petitions are being circulated for paving three or four more streets, and that the petitions are being freely signed by interested property owners.

Mrs. E. C. FULLER and family started to-day for Baraboo to join Mr. Fuller, who for the past six months has been located there in charge of the American Express Company's business. The Fullers have lived in Janesville for twenty years. Their home on West Bluff street was sold yesterday to the railway conductor, Mr. Dunwiddie. The people of Baraboo are to be congratulated on gaining the Fuller family as permanent residents. The best of wishes follow them from Janesville friends.

We are informed by Secretary Heimstreet that an invitation has been extended to the school for the blind to make an exhibit at the fair, and we would add our voice to this invitation. A majority of our own people do not know the work that is being done at the school and we think such an exhibit would be an important feature of the fair.

COMPETITION may whet its knife to the keenest edge but it has no terrors for us. These are evolving times and we know it. Our shoes have the imprint of progress, fresh, up-to-date and a little beyond leaders whose merits win for them friends whose name is legion, invincible in fit, style, quality and price. Brown Bros. & Lincoln.

JOE WAGGONER, the second-hand store man, arrested two colored boys for trying to hold him up last night, and marched them down town at the point of a big brass door key. The boys afterwards proved their innocence and Attorney Hyzer got them released from jail.

CLARK'S Horse Review, published in Chicago, prints a very handsome half-tone portrait of H. D. McKinney of this city. It also prints in the same number a very clever cartoon of John Sweet's Irish jaunting cart with his tandem team.

PROGRESSION—What better evidence, indisputable proof, could we present to substantiate our assertion than the steady growth of our trade. The month's trade has surpassed any month for nine years. Brown Bros. & Lincoln.

The Ladies' Aid Society of the First Methodist church, will hold a lawn social at the home of Rev. J. D. Cole, 109 North Academy street, Wednesday evening, June 27. Ice cream and cake will be served. Everybody is invited.

The News Boys defeated the Third Ward nine by a score of 15 to 3. The battery for the News Boys was F. Laherty and Collins, and for the Third Ward Charles Hodson and George Brownell. Bert Watt acted as umpire.

The Richardson Shoe Co.'s line of russet shoes are the finest in the city. The best is always the cheapest, especially when it costs no more than inferior goods. We know how to fit feet. Richardson Shoe Co.

The funeral of Adam Hayner will be held at the home of Silas Hayner at 3 o'clock instead of at 2 o'clock tomorrow afternoon. The funeral party will arrive on the noon train from Chicago.

BARBERS will not meet on the ball field next Sunday. Athletic park could not be secured and the Beloit-Janesville tonorial experts must possess their souls in patience until a later day.

BILLY MASON publishes a challenge for a bout between Robert Courtney and William Irwin of this city, but Irwin's friends say it is a bluff, that Courtney has no business to meet Irwin.

TRENCH diggers commenced digging trenches for the water main extension to the school for the blind yesterday. Mr. Maxey expects the water will be turned on this new line in two weeks.

HIT the bull's eye. To do this in the boot and shoe trade you have to have the right kind of goods, at the right season, at the right price. We have them. Brown Bros. & Lincoln.

THERE is no increase in salary in the Janesville postoffice this year. The re-rating has been done and only twenty-three offices in the state were benefitted. Seventeen were lowered.

THREE hundred people enjoy the picnic given by the Presbyterian church at the old Mayflower park yesterday. The boats ran all day to accommodate the crowd.

YOUR wife will leave you if you wear those old shoes much longer. They look so worn and shabby, and have no more style about them than a

last year's crow nest. You would not be a bad looking fellow at all if you wore a pair of the Richardson Shoe Co's shoes. Do you take the hint? Samples now here.

W. H. COON of Fort Atkinson has purchased the stock of goods owned by Thomas King, proprietor of the Fair store. He took possession this morning and will soon be in the front ranks of the mercantile business in Janesville.

THE sale on capes at half price and less, now taking place at Archie Reid's, offers exceptional advantages to buyers, and if you are interested, we advise your early attention.

THE wit in running a successful trade in wrappers depends on style, quality, comfort and price. Another large shipment received this day. J. M. Bostwick & Sons.

A WARRANT was issued this morning for the arrest of Michael Fanning on charge of beating his board bill. Miles Cox of the Riverside hotel was the complainant.

A GREAT many people are calling for our sample shoes—just received from the factory. 500 pairs on hand, less than half price. Richardson Shoe Co.

FIFTY dozen more of our celebrated twenty-five cent black silk mitts arrived this day; as good as 37½ cent mitts elsewhere. J. M. Bostwick & Sons.

## WATERS WILL BOIL WITH GAMY BASS.

### RICHARD VALENTINE CONFERS WITH THE COMMISSION.

Janesville Man Back From the Milwaukee Meeting With Projects for Filling Inland Lakes and Streams With Black Bass From the Mississippi River Bottoms.

Richard Valentine is home from Milwaukee full of the project of a Rock county fishing club. He attended an important meeting of the Wisconsin Fish Commission and arrangements were made for entering upon the transportation of black bass, the best fish of our inland waters, this fall on a larger scale than ever before by means of the fish car. The work will be begun about August 1, and it will consist in catching black bass in the Mississippi sloughs and planting them in the Wisconsin lakes and inland rivers. It is promised that Lake Koshkonong and Rock river will get their share.

The commission is of the opinion that the good work done in stocking the lakes and streams of the state with fish is handicapped with the fishermen who disregard the laws. With a view to reduce the amount of illegal fishing, a resolution was adopted favoring the formation of fishing clubs all over the state, and authorizing the president and secretary of the commission to correspond with parties in different localities desiring to form the clubs and to assist them in carrying out their plan as much as possible without expense to the state. It is believed that ultimately a state league of fishing clubs will be formed, thus stimulating an interest in the enforcement of the laws. Regulations were adopted for the appointment of agents throughout the state to assist in transplanting fish to public waters.

### A QUARTET OF FREPORT WAIFS.

They are Corralled This Morning by Chief Acheson and Held for Freport Officers.

Miss Ada Nettles, Master Uel Newman, Arthur Nettles and Orle McConnell, comprised an interesting quartet of Freport youths that Chief of Police Acheson arrested this morning on request telegraphed to him from the chief of police of Freport. "Arrest the youngsters and put them in jail," said the Freport message. The girl and two of the boys are only thirteen years old, the other had being fifteen.

"I do not know what they are wanted for," said Chief Acheson when marching the quartet to jail. "They are very good looking youngsters and appear very well. Perhaps they have only run away from home. I arrested the girl on the street last night. The boys I could not find until this morning. They appear very well posted and have nothing to say, only that their home is in Freport. I expect the Freport officer here this afternoon."

### MANY PUPILS ATTENDED MASS

Rev. Father C. F. McBride Conducted His First Services This Morning

Rev. Father C. F. McBride, who was recently ordained at St. Francis seminary, Milwaukee, celebrated his first mass at St. Mary's church this morning. Rev. Father Joseph Brainerd, rector of St. Francis seminary, preached the sermon. Between forty and fifty students of St. Francis seminary were present, besides a large number of other visitors. The occasion was also one of interest to Rev. Father R. J. Roche, rector of St. Mary's church, this day being the fourteenth anniversary of his ordination. After the impressive services at the church the visiting students and guests took dinner at Gollings, the party occupying the tables at 2 o'clock this afternoon. Father McBride is a son of William McBride, a prosperous farmer residing on Milton avenue.

### BOTH CLAIM ALLEN'S THREE COWS

Judge Bennett Likely To Be Called in as Legal Arbitrator.

Judge Bennett will have a neat law point from Beloit to decide before long. A while ago Miller & Adams tendered Charles Allen, of Chicago, ninety dollars for three cattle to a Rockton man. Now it transpires that Al. Buckridge the same day bought the cattle of L. B. Sanford, agent, who does business for Mr. Allen, in Beloit, and Mr. Buckridge has replevined the cattle, claiming them as his property. All the parties were acting in good faith, and it remains to be seen whose claim will hold.

### Hotter With a Chance of Showers.

Forecast: Clear and much warmer today and tonight. Thursday continued high temperature and probably thunderstorms in afternoon or night.

The temperature as recorded by S. C. Burnham & Co. during the last twenty-four hours was as follows: 7 a. m. 70 above. 1 p. m. 88 above. Max. 90 above. Min. 63 above. Wind, south.

### Modesty and Honesty.

Oh, no, we're not the only shoe store in the world. There's another. We're not monopolists. You can get along without us. Should we drown, calm would follow the ripple of our disappearance. We run our business on a small margin because it pays to sell good goods cheap.

### JANESVILLE GIRLS DERIDED.

Traveling Men Say That Racine Girls Beat Them at Flirting.

What is to become of Janesville since her fame for pretty and winning maidens is shaken? Traveling men are admitted to be authority on such subjects and a number of them were relating their experience during the T. P. A. convention in Milwaukee. A young man who has traveled for many years in Wisconsin, grouped the Badger cities and had the hardihood to put another town ahead of Janesville. He said:

"Racine comes first. Some of the fairest, and fliriting, most skillful girls in Wisconsin are there. Next I would place Janesville. The girls there are very pretty and warm hearted. Beloit is all right, but Madison is the dullest town. The students, I think, have spoiled the Madison girls. La Crosse is a good place but it is not in it with Oshkosh. In fact, Oshkosh deserves to be placed almost on a par with Racine. I have passed some of the happiest hours of my life in Oshkosh. Sheboygan, Fond du Lac, Neenah, Green Bay, Manitowoc and Appleton are about on a bar. It is the easiest thing in the world to find some good flirting in any of these towns. I struck up a fine acquaintance once in Stevens Point but came near being badly taken in. My beauty formed such an attachment for me that she followed me to Wausau and Rhinelander. I simply had to shake her at the latter city."

### SHARPS WORK THE VACCINE GAME.

Farmers Swindled by Bogus "Health Officers" Who Claim to Represent the State.

The latest swindling scheme out is being worked on farmers. It is something similar to that which is being worked in Chicago, only no good results come from it as in the Windy City. Men representing themselves as officers are calling on the unsuspecting. They represent that the state law requires vaccination, and that they are sent out by the county. They vaccinate their victims, charge fifty cents and disappear. The vaccine virus quills left at several places have been examined and the matter supposed to be virus turns out to be nothing but paste.

### WEDDED 'MID JUNE'S JOYS.

Nowlan-Merrill.

Golden floods of June sunshine promised happiness to Burton F. Nowlan and Miss Jessie E. Merrill as the words were said that made them husband and wife today. The ceremony was performed at the home of the bride's parents, Mr. and Mrs. Hiram Merrill at high twelve. It was a very quiet wedding—wholly lacking in ostentation—but the occasion was all the more an impressive one. It was a ceremony hallowed and made doubly significant by the deep regard entertained by all who gathered in the parlors and extended their congratulations.

Unattended the bride and groom entered the front parlor and stood before Rev. A. H. Barrington. With the full and beautiful ring service of the Protestant Episcopal church they were wed, Hon. Hiram Merrill giving the bride away. The bride was in her traveling dress, and dainty indeed she appeared.

Luncheon was served immediately after the ceremony, by Shurtleff, the guests being seated at small tables. At 2:15 Mr. and Mrs. Nowlan left for Chicago over the Chicago & Northwestern. Their plans as to a wedding trip are not completed, but they may visit Milwaukee, Madison and the Dells. When they return it will be to make their home for a time with the bride's parents.

The good wishes of friends innumerable were expressed by handsome presents. Gift as well as phrase proves weak and inadequate however when there is to be typified regard such as that in which Mr. and Mrs. Nowlan are held by those who have had the privilege of knowing them. That they are popular and deservedly so—made so by their real worth no less than by the qualities in evidence in social life—is but a scant tribute.

—Arnold-Setzer.

At the residence of Mr. and Mrs. Henry Nagle in the city of Detroit, June 20, 1894, by the Rev. T. R. Coldwell, of the Baptist church, Miss Permelia Arnold, of the city of Detroit, Mich., and M. L. Setzer, of Vernon county, Wisconsin, were united in marriage.

## ANOTHER ONE WALKS AIDED BY FAITH

### SECOND "MIRACLE" STIRS JANESVILLE PEOPLE.

Mrs. William Jude, Who Has Been Bedridden for Nineteen Years Is Now Able to Walk and Credits Her Recovery to the Prayers of Tent Evangelists.

Another remarkable "cure" has stirred the town.

This time it is in the First ward and Terrace street people are wrought up to fever heat.

Mrs. Marion Jude, a woman well along in years who has been confined to her bed for the past eighteen years. She has been visited several times by the evangelists occupying a tent on High street. This noon the "evil spirit" was driven from her body and she arose from her bed, and walked to a chair and sat down. Neighboring ladies called, and seeing the old lady sitting up could not believe their sight, and in a few minutes the whole neighborhood turned out, calling at the Jude home to ascertain the truth. All were astonished at what they beheld, and a breathless sensation pervaded. Mrs. Jude was up, feeling hale and hearty, attributing her recovery wholly to divine forces. As said before, she has been bedridden for eighteen years, her lower limbs having been drawn out of natural shape by her long confinement. Evangelist Welch laid on hands commanding the evil spirit to depart, and the patient sufferer was relieved. A neighborhood prayer meeting was held this afternoon at the home of Miss Obrist on Caroline street.

### BALLOON TO GO UP ON JULY 4

Efforts Now Being Made To Secure The Necessary Funds.

In case \$100 can be raised by private subscription, there will be a balloon ascension on July 4. The ascension will be in charge of the P. T. Collins Co., who managed the ascension last Sunday. All the funds on hand having been appropriated there is not enough on hand to engage the attraction, but some arrangements may be made whereby the money can be raised.

The parade will form on West Milwaukee and Academy streets with the right resting on Academy and will march east on West Milwaukee street to Main street; north on Main street to Prospect avenue, east on Prospect avenue to Bluff street, south on North Bluff to East Milwaukee street, west on East Milwaukee street to Main street to the courthouse park.

Arrangements have been made with Frank F. Pierson to fire the national salute of thirteen guns at sunrise, also during the parade and at sunset. He will use his big gun on that occasion.

Marshal B. H. Baldwin has appointed John Sweet, Dr. Joe B. Whiting, Chauncey Miltmore and E. A. Hyde as assistant marshals.

### A FAMOUS RESORT.

Hot Springs, Garland county Arkansas, has been a resort for invalids since the first cabin was built in 1809. Legend identifies these springs with the "Fountain of Youth" of Ponce de Leon. The town and springs are on a reserve of four sections set aside by congress in 1832. There are seventy-one springs in number, with a total discharge of 335 gallons per minute. The well-known efficacy of the water in the treatment of chronic cases of the skin, joints and mucous membranes, is due without doubt to their temperature and not to their mineral constituents. The waters are no doubt beneficial in cases of neuralgia and rheumatism but the great remedy, Sanspareil, sold by all druggists is guaranteed to produce more favorable result. Don't experiment with inferior remedies. Try Sanspareil for rheumatism, neuralgia, headache, tumors, wens, goitre, sprains, sore throat, inflammation of the bowels, etc.

REV. FATHER CLARKE, Sec'y to the Rt. Rev. Bishop of Columbus, Ohio, writes:  
GENTLEMEN:—I cannot say enough for your Powder. It has cured me of an aggravated attack of catarrh when nothing else could help me. Am delighted with it. All my friends to whom I administered samples are quite enthusiastic over it. The good sisters speak most encouragingly of their use of it in the Hospital under their care. I will do anything to speak a good word for the remedy to help others who are suffering.

M. E. FERGUSON, Custodian U. S. Appraiser's Stores, Chicago, writes:  
GENTLEMEN:—Being almost entirely deaf for a number of years past and getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrhal Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick plainly, it being held 18 inches from my ear. I look upon it as a positive cure for deafness and have recommended its use to many of my friends and can say I have never heard of a case where it has failed to relieve.
